Philippe

OFFICIAL LANGUAGES:
French,
Dutch, German

EXCELLENT HIGHER EDUCATION

The higher education system is varied, diversified and accessible. From universities and university colleges to schools of arts, from Bachelor level through to PhD, each and every student is sure to find the right education for their plans. By choosing French-speaking Belgium to study, students can count on excellent education hinged on a long tradition of scientific and technological innovation and research.

Universities

The universities offer their students theoretical and scientific courses. The options are divided up into 4 main areas of knowledge: science and technology, human sciences, health sciences and arts. In addition to in-depth knowledge of the chosen subject, the universities offer a solid general education, encouraging their students to study within a scientific approach. This is why the focus is firmly on research, both basic and applied.

University colleges

The university colleges offer a quality education, liaising closely with applied research, universities, and socio-professional environments. Differently to the universities, the teaching employed in the university colleges is hinged on learning and the world of work. Theoretical and conceptual aspects are all part of the programme with a heavy focus on internships, which are mandatory.

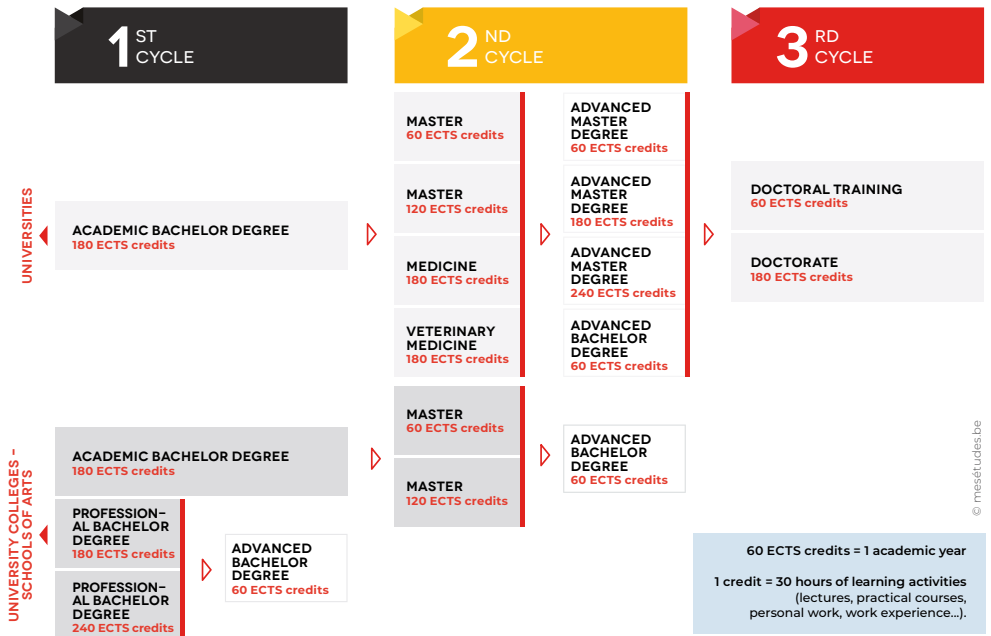

Schools of arts

Enjoying world renown, the schools of arts educate all Belgian and foreign students looking to pursue visual arts, theatre and the arts of entertainment and music.

Although higher education is a Community competence in Belgium, the system in application is comparable between the three Communities (Wallonia-Brussels Federation, Flemish Community, German-speaking Community) and is based on a system of three cycles of studies: the Bachelor's degree, the Master's degree and the PhD. Each qualification obtained gives ECTS credits to students, which are recognised in numerous countries in both the European Union and worldwide. As an adhering member of this system, the Wallonia-Brussels Federation is committed to guaranteeing the quality of higher education, promoting student mobility and strengthening the globalisation of its higher education.

How higher education works

The award of the qualifications (bachelor's degree, master's degree and PhD) is linked to the number of years of studies completed since entering higher education. Each year can award up to 60 ECTS credits (European Credits Transfer System), which can be used and transferred from one country to another.

- A 1st cycle qualification (bachelor's degree) represents 180 or 240 ECTS credits, namely 3 or 4 years of study.
- A 2nd cycle qualification (master's degree) represents 60, 120 or 180 ECTS credits, namely 1, 2 or 3 years of study.
- A 3rd cycle qualification (PhD) represents a variable number of ECTS credits.

THE INTERNATIONALISATION OF HIGHER EDUCATION IN FRENCH-SPEAKING BELGIUM

Situated in the heart of Europe, the Wallonia-Brussels Federation welcomes more than 300,000 students every year, of whom more than 20% are international. Split between 41 top quality higher education institutions, more and more students are now choosing to come to French-speaking Belgium.

+36%

16%

OF STUDENTS ARE INTERNATIONALLY MOBILE

THOUSANDS OF JOINT PROGRAMMES HAVE BEEN DEVELOPED, INCLUDING "ERASMUS MUNDUS" MASTER'S DEGREES AND PHDS.

NUMEROUS COURSES ARE DELIVERED IN ENGLISH, SPANISH, GERMAN AND DUTCH.

Like everywhere else in the world today, the French-speaking Belgian **university colleges** are adapting to the context of globalisation and are internationalising their teaching. For them, this means maintaining and developing partnerships with higher education institutions established on the five continents, promoting incoming and outgoing student mobility, encouraging the mobility of teachers (promotion of the institution, sharing of expertise and good practices, development of joint programmes, etc.), setting up double degree programmes and encouraging the mobility of administrative and technical staff.

Open-minded and multicultural

There can be no doubt, a stand-out feature of the Wallonia-Brussels Federation is its diversity and openness to the world. The Federation's ability to secure international partnerships and export its talent bears witness to this openness. Although English is spoken widely, in addition to the three official languages (French, Dutch and German), a great many other nationalities are also represented in the higher education institutions of Wallonia-Brussels, institutions that welcome more and more international students with each year that passes.

BELGIAN SCIENTIFIC RESEARCH: RECOGNISED WORLDWIDE

In French-speaking Belgium (Wallonia-Brussels), scientific research is an area that is shared by the federal state, regions and communities. In practical terms, two types of higher education institutions are in charge of research:

- **Universities**, which assure basic scientific research (community competence). Please also note that PhD researcher training lies exclusively with universities and university academies.
- **University colleges**, which deal with applied research (regional competence). Additionally, since 2019, university colleges can now submit applications for financing for research projects using the FRHE (University college research financing) scheme.

The influence of scientific research in the Wallonia-Brussels Federation beyond its borders is confirmed by its many Nobel prize winners:

UNIVERSITY COLLEGES

A BRAINY
CHOICE

UNIVERSITY COLLEGES: PRACTICAL, PROFESSIONAL EDUCATION

The 19 university colleges in French-speaking Belgium organise a practical and professionalising education where internships in companies are often compulsory. Theoretical and conceptual aspects are still part of the curriculum. They are aimed at students who are looking for small classes and regular work. The university colleges follow the structure of the Bologna guidelines, except that they do not organise doctorates. Most of today's university colleges are associations of pre-existing schools that are geographically close but offer a variety of courses. Some fields are taught at both universities and university colleges; it is the different learning techniques that guide students' choice. About 44% of the total student population study in university colleges.

How are university colleges studies organised?

- Studies organised as a single cycle, leading to a **professional Bachelor's degree** (180 - 240 ECTS credits).
- Studies organised into two cycles, leading to a **Bachelor's degree** (1st cycle - 180 ECTS credits) and **Master** (2nd cycle – 60 to 120 ECTS credits).
- Studies organised into one or two cycles, leading to an **advanced Bachelor's degree**. This can be obtained after having successfully completed an initial Bachelor's or Master's degree. The advanced Bachelor's degree contains at least 60 ECTS credits.

<https://www.heaj.be/en/>

Contact person for international relations:

Véronique VAN CAUTER: veronique.vancauter@heaj.be,
cri@heaj.be

A school in Economics, Computer graphics, Paramedics and Education.

The Haute École Albert Jacquard offers you degrees in varied fields such as management assistant, public relations, accounting, computer graphics, psychomotricity... You can discover all these courses in detail on our website!

Beyond its cutting-edge educational commitment, the school provides the students with a large number of services. Numerous cultural activities are planned by and for the students. Knowing that this world is changing and that future jobs still have to be created, the school is proud to encourage student entrepreneurs. The school also offers academic support service as well as a social service.

The Haute École is also committed to research through different projects such as the Digital School, the Visionary Project, the CAPture project.

Moreover, common events are organized to welcome exchange students, help them integrate in their new environment. French as a foreign language classes are also offered before and during their stay.

Studying at HE2B, Haute École Bruxelles-Brabant, is a guarantee:

- of high-quality higher education that launches students into a fulfilling professional life and gives adults resuming studies the possibility of expanding upon their knowledge;
- of evolving in a welcoming, diversified environment hinged on humanist, democratic and fair values;
- of taking part in institutional life, developing innovative projects that satisfy the challenges of the societies of today and of tomorrow;
- of being assisted and supported throughout the process, in all difficulties and differences, in a school that specialises in success.

HE2B is a university college that offers a truly positive dynamic to allow everyone to reach excellence.

Professional Bachelor's degrees, Master's degrees and specialisations.

International exchanges, training courses, study and research areas (libraries, games library, research centre, etc.), numerous student services (accommodation assistance, student support, for students with special needs and sports students, social services, etc.).

HAUTE ÉCOLE CHARLEMAGNE

HEAD OFFICE

Rue de Bruxelles 6
4000 Liège
<https://www.hech.be>

Contact person for international relations:

Anne-Marie MARTIN LANERO: relinter@hech.be

A member of the Wallonia-Brussels Federation, Haute École Charlemagne offers higher education open to everyone: professional Bachelor's degrees, Master's degrees and specialisations. It runs more than 30 different courses in 5 departments (agronomy, biomedical, economics, teaching and technical)! Its campus is organised on a human scale, allowing the focus to be put firmly on the student. Practical education forms the heart of teaching, particularly thanks to traineeships that are given particular importance during the programme. Visits are also organised to companies as well as professional seminars.

At the end of their course, students have good experience in the field and are ready to start their working lives. They are particularly appreciated by professionals.

Studying at Haute École Charlemagne is a guarantee:

- of high-quality higher education that allows students to take to the world of work with immediate efficiency;
- of evolving in a welcoming environment hinged on human values;
- of assistance and support throughout the experience.

International exchanges, traineeships, numerous services for students (help to succeed, social services, etc.). The student is our number one priority!

HAUTE ÉCOLE EPHEC

HEAD OFFICE

Avenue Konrad Adenauer 3
1200 Bruxelles
<https://www.ephec.be/>

Contact person for international relations:

Barbara BROOIJMANS: b.brooijmans@ephec.be,
international@ephec.be

EPHEC University College is organised into four faculties linked to four main training sectors: **EPHEC Business**, **EPHEC Education**, **EPHEC Santé (Health)** and **EPHEC Tech** providing access to qualified jobs in growth sectors or to a second academic cycle. EPHEC will organise 19 bachelor's degrees, 5 specialisation bachelor's degrees and 12 master's degrees.

EPHEC aims to **develop** not only students' **technical skills**, but also their solid **cross-disciplinary skills** - creativity - cooperation - active listening - problem solving - decision making, in order to ensure a **sustainable employability**.

We are deeply convinced that the perfect combination of these hard and soft skills will enable each student to develop his or her personal project, at local or international level, and contribute to building a more sustainable world. Our academic institution wishes to foster the development of individuals and society while being recognised for the expertise of our staff in the education and professional training of citizens who can play an active and enterprising role in society, from the outset and throughout their careers, at local and international level.

Our **pillars** are :

A hands-on pedagogical approach

In our pedagogical approach, a thorough understanding of theoretical principles is combined with innovation in practical training through small classes. Collaboration, practice, professionalism and entrepreneurship are the essence.

Strong links with the professional world

EPHEC has strong relationships with leading companies (both for-profit and not-for-profit) and work-integrated learning is part of every degree. Students have experience in their field even before they graduate.

Internationalisation

Our aim is to develop international skills for all our students. Study and work placement mobility, short international programmes, summer schools, internationalisation at home (I@H), and virtual projects are developed with the help of a large network of international partners.

Research and development

EPHEC aims to conduct research projects closely related to our teaching areas. We seek collaboration and co-creation with our public and professional, local and international, business and government partners.

HAUTE ÉCOLE FRANCISCO FERRER

HEAD OFFICE

Rue de la Fontaine 4
1000 Bruxelles
<https://www.he-ferrer.eu/>

Contact person for international relations:

Alizée SIMAL: alizee.simal@he-ferrer.eu,
heff.europe@he-ferrer.eu

The Haute École Francisco Ferrer, a higher education institution of the Wallonia-Brussels Federation, is situated in Brussels, at the very heart of Europe's capital, thereby making it open by tradition to intercultural exchange and to welcoming international citizens.

Its courses are organised within 5 departments: Applied Arts, Social and Economic, Paramedical, Teaching and Technical. Training is mainly for professional Bachelor's degrees running for 3 or 4 years, focussed on professional practice and integration into the world of work.

The welcoming and accompaniment of students from partner institutions are assured by our International Relations Office.

For an ever-greater international approach, the university college has created an "International Programme in English" for its students in the "Business and Administration" Economic Department.

The values of the university college can be seen in the Social and Cultural Teaching Project as well as in the university college's globalisation strategy.

HAUTE ÉCOLE GALILÉE – IHECS

BRUSSELS SCHOOL
IHECS
Journalism & Communication

HEAD OFFICE

Rue de l'Étuve 58-60
1000 Bruxelles
<https://www.ihecs.be>

Contact person for international relations:

Sophie HENRARD: sophie.henrard@galilee.be

In the heart of Brussels, the Haute École Galilée – IHECS trains professionals in communication and journalism of tomorrow.

The Haute École Galilée – IHECS places the student at the heart of its education project. We guide them along the paths to excellence and absolute professionalism, in line with the different aspects of their personality.

The HEG - IHECS is:

- 2,900 students
- 200 members of staff
- More than 350 graduates every year
- About 250 students and 50 tutors who go on international exchanges every year
- 1 Bachelor's, 6 Master's and 2 Executive Master's courses
- 1 field of training: Communication and Journalism
- 1 higher education institution in the heart of Brussels!

HAUTE ÉCOLE ICHEC – ECAM – ISFSC

HEAD OFFICE

Boulevard Brand Whitlock 6
1150 Bruxelles
<http://he-ichec-ecam-isfsc.be/>

Contact person for international relations:

Sophie PETERS: sophie.peters@ichec.be,
exchange.in@ichec.be

With its 4 campuses located in the heart of Brussels, the University College ICHEC-ECAM-ISFSC offers 26 courses in fields such as economic and management science, engineering science and technology, information and communications and social and political science. It also operates in research, continuous training and entrepreneurship.

International scope

The University College welcomes more than 4,300 students of more than 60 different nationalities each year. The group's international scope is one of its academic pillars and it offers students many opportunities for training in French or English or on French/English bilingual courses. These include, for example, the 'Master's degree in Management Sciences' and the 'Master's degree in Business Management'.

Its students also have the possibility to engage in many inter-university exchange programmes due to more than 213 bilateral agreements signed with its partners in Europe and worldwide.

Academic excellence

ICHEC is accredited with the prestigious AACSB quality label which certifies the institution's value on the national and global stage. Its joint diploma in finance co-awarded by the Louvain School of Management is recognised by the CFA (Chartered Financial Analyst) Program.

ICHEC is the first French-speaking Belgian member of the CLADEA network, a prestigious global management school network based in Latin America.

ECAM's 6 engineering courses are accredited by the CTI (Commission des Titres d'Ingénieur) engineering degree commission.

Business experience

Its educational mission is anchored in a balanced combination of theory and practice. With close and solid ties to the business world, the institutions offer their students professional immersion (internships, business projects, etc.) that is unique in Belgium and abroad, throughout their academic career.

Innovative teaching

Thanks to their human size, ICHEC, ECAM and ISFSC guarantee all their students continuous and personalised supervision. Their teaching methods are flexible, innovative and constantly being adapted to the changes affecting the fields taught.

HAUTE ÉCOLE EN HAINAUT

HEAD OFFICE

Rue Pierre-Joseph Duménil 4
7000 Mons
<https://www.heh.be/en/>

Contact person for international relations:

Laurence BARAS: laurence.baras@heh.be,
relations.internationales@heh.be

HEH.be provides Bachelor's and Master's degrees organised by Wallonia-Brussels Federation.

Since 1996, the year of its creation, Haute École en Hainaut (HEH.be University College) has always met the challenge of offering a quality education provided by well-motivated teachers and promoting student success thanks to an individualised support throughout their training.

To achieve its goals, HEH.be offers its more than three thousand students a range of thirty-one Bachelor's and Master's study programmes spread across four departments in Mons and Tournai. Furthermore, the institution is also committed to providing inclusive higher education.

Since 7 November 2013 and the adoption of the decree redefining the landscape of higher education, HEH.be has been part of the Pôle hainuyer academic centre, the higher education hub in the province of Hainaut, and works together with the other higher education partner institutions of Hainaut to fulfil its tasks of teaching, research and services to society.

Aware of the importance of international openness, HEH.be signed the Erasmus Charter for Higher Education 2014-2020 and is a beneficiary of the Erasmus+ European mobility programme. It can thus provide mobility grants to its students so that they can carry out an internship or part of their studies abroad.

HAUTE ÉCOLE LÉONARD DE VINCI

HEAD OFFICE

Place de l'Alma 3 Bte 3
1200 Bruxelles
<http://www.vinci.be>

Contact person for international relations:

Maité ABRAM: maite.abram@vinci.be,
international@vinci.be

The Haute École Léonard de Vinci (HE Vinci) is a higher education institution recognised for the quality of its 39 short-term (Bachelor's degree), longer (Master's degree) and specialisation courses.

Situated in Brussels and Louvain-la-Neuve in a high-quality environment, the Haute École Léonard de Vinci welcomes more than 7,500 students of 68 different nationalities. It operates in research, continuous training and numerous services for society.

Its priority is to train state-of-the-art professionals in their areas. The approach taken by programme and teaching by project successfully tailor the students' studies, giving them the chance to complete traineeships in the world of work right from the very first year.

The university college also increases the international partnerships that students and teaching and administrative staff can benefit from throughout their time here.

HAUTE ÉCOLE LIBRE DE BRUXELLES ILYA PRIGOGINE

HEAD OFFICE

Bâtiment HA – ULB (CP 220/01)
Boulevard du Triomphe 1
1050 Bruxelles
<https://www.helb-prigogine.be/>

Contact person for international relations:

Michael ROBERT: michael.robert@helb-prigogine.be,
international@helb-prigogine.be

The Haute École Libre de Bruxelles trains thoughtful future professionals with a critical mind and who develop into responsible citizens. It is backed by the ULB. It has a vocation for local teaching (teaching management) open to the world (social, economic and cultural).

It encourages applied research and is clearly in favour of the “globalisation” of its teaching (student and teacher mobility) and the institution of “international modules”. The university college is proudly welcoming and is committed to sustainable development.

It organises short Bachelor’s degree courses: Social Worker, Cinematography, Social Ecology, Applied Electronics (run jointly with HE Ferrer), Occupational Therapy (run jointly with HE2B), Oral Health and Dental Hygienist (organised jointly with ULB, UCLouvain and HE Vinci), Management IT, Orthoptics (run jointly, organised jointly with Institut Ilya Prigogine, ULB, UCLouvain and HE Vinci), Photography, Podiatry, Public Relations, Midwifery, Nursing Care (and specialisations).

It also organises a Master’s degree in Physical Therapy and co-organises a Master’s degree in Cyber Security.

HAUTE ÉCOLE LIBRE MOSANE

HEAD OFFICE

Mont Saint Martin 45
4000 Liège
<https://www.helmo.be/>

Contact person for international relations:

Julie GUIOT: j.guiot@helmo.be,
international@helmo.be

Haute École HELMo is a higher education institution situated in and around Liège, which offers more than 40 different courses in the economic and legal (Foreign trade, Marketing, Compatibility, Management Assistant, Insurance, Law, International cooperation, Master's in Public Management), teaching (Specialised Educator, Pre-School and Primary Teacher, PE Teacher, Secondary School Teacher, Special Education, etc.), paramedical (Nursing, Specialisations in SIAMU (the Fire and Emergency Medical Assistance Service), Paediatrics or Community Health, Midwifery, Laboratory technologists), social (Social Workers, Social-Cultural and Sports Entertainer, Master's in Engineering and Social Action, etc.), IT (Programming and Cyber Security, etc.), short course training (Fashion Techniques, Robotics, Automation, Technical-Commercial) and long course training (Industrial Engineer: Industry, Sustainable Energy Engineering, Industrial & Business Engineering, etc.) sectors.

Its main purpose is to assure initial training, research and continuous training. As a training player, it helps assure the development of its region in the sectors of health, human and social sciences, and sciences and techniques. In the pursuit of excellence, it stimulates and develops innovative teaching practices, creativity and an entrepreneurial spirit. HELMo is a social and economic player that serves the Liège hinterland whilst helping develop the whole of the Wallonian region, construct the European and international area and assure cooperation towards development.

HELMo in a few figures:

- more than 8,200 students
- more than 900 members of staff
- more than 500 foreign students take courses in HELMo
- 80 Erasmus students are welcomed to HELMo every year
- 200 HELMo students leave each year for international exchanges
- HELMo collaborates with 180 partner institutes across the world

HAUTE ÉCOLE LOUVAIN EN HAINAUT

HELHa
Haute École Louvain en Hainaut

HEAD OFFICE

Chaussée de Binche 159
7000 Mons
<https://www.helha.be/>

Contact person for international relations:

Christian GOETHALS: international@helha.be

Established on 15 September 2009, the Haute École Louvain en Hainaut (HELHa) is the result of the combination of three university colleges (Haute École Charleroi-Europe - Haute École Libre du Hainaut Occidental - Haute École Roi Baudouin). Today, HELHa is the largest university college in the whole of the Wallonia-Brussels Federation.

In short, HELHa comprises:

- 7 training areas: Agronomy, Applied Arts, Economy, Health, Teaching, Social, Technical;
- 60 short-term (3 to 4 years for a Bachelor's degree level) and long-term (5 years for a Master's degree) courses;
- 15 sites in the basins of Charleroi, Mons, Tournai and Brabant Wallon;
- Numerous student services (social services, an inclusion service, an international service, a guidance service, a student-entrepreneur service and a tutorship possible in certain departments);
- A student organisation on each institution;
- An average of 10,000 students per school year;
- More than 2000 graduates per year;
- And numerous possible opportunities!

HAUTE ÉCOLE LUCIA DE BROUCKÈRE

helldb
haute école
lucia de brouckère

HEAD OFFICE

Avenue Emile Gryzon 1
1070 Bruxelles
<https://www.helldb.be/en/>

Contact person for international relations:

Crépin MISONGE: crepin.misonge@cnldb.be,
bri@cnldb.be

The Haute École Lucia de Brouckère (HELdB), located in Brussels and in the Walloon Brabant, offers a wide range of three-year (Bachelor's degree) and five-year (Master's degree) trainings.

It organises approximately 15 different programmes, gathered in 5 categories: agronomic, economic, paramedical, educational and technical.

The university college combines the theoretical and practical aspects thanks to training in the field, conferences, study stays... Split into small groups, the students benefit from the experience and knowledge of their teachers, often coming from the professional world.

The university college is also open on the world. Not only is its student population extremely multicultural, the institution also encourages international exchanges—both traineeships and Erasmus stays—and collaborates with research centres to ensure high quality teaching.

HAUTE ÉCOLE DE NAMUR- LIÈGE-LUXEMBOURG

HEAD OFFICE

Rue Saint-Donat 130
5002 Namur
<https://www.henallux.be/>

Contact person for international relations:

Marie-Anne LECOMTE: marie-anne.lecomte@henallux.be,
relations.internationales@henallux.be

For every project, for every talent

The Haute École de Namur-Liège-Luxembourg (Hénallux) numbers more than 6,500 students spread across ten campuses, in the Provinces of Namur, Liège and Luxembourg. It offers a vast range of training in higher education, at Bachelor's and Master's levels, several one-year specialisation programmes and a large number of in-service training sessions. It is part of two academic hubs: the Namur Hub and the Liège-Luxembourg Hub.

High values

The Hénallux organises local training with an international flavour, staying one step ahead of the evolution of society's needs and contexts, taking a supportive, sustainable development approach. It helps each student develop their skills, independence and responsibilities to help them bloom personally and professionally. The values of responsibility, agility, solidarity, kindness and open-mindedness underpin the daily actions of everyone at Hénallux.

If you fancy studying at Hénallux, don't hesitate to go further in your search for information: meet students and teachers, particularly during the Open House Days, the Open Courses and Information Evenings.

HAUTE ÉCOLE PROVINCIALE DE HAINAUT – CONDORCET

HEAD OFFICE

Chemin du Champ de Mars 17
7000 Mons
<https://www.condorcet.be/>

Contact person for international relations:

Claire AVRIL: claire.avril@condorcet.be,
bureau.mobilite@condorcet.be

High level training offering everyone equal opportunities for social emancipation! Every day, nearly 9,500 students place their trust in the Haute École Condorcet.

Since 2009, the Haute École Provinciale de Hainaut – Condorcet has offered accessible, quality teaching open to students from other provinces and abroad.

More than 70 training courses and 6 sites
Bachelor's, Master's and specialisation courses are organised on the Haute École Condorcet's different sites (Tournai, Ath, Saint-Ghislain, Mons, Morlanwelz and Charleroi). Wide geographical coverage and teaching focussing on professional practice are where the HEPH-Condorcet really scores.

10 departments

Agrobiosciences and Chemistry/Applied Arts/Communication, Education and Social Sciences/Marketing, Tourism and Hotel Management/Public Health/Economic, Legal and Management Sciences/Education Sciences/Language Therapy Sciences/Motricity Sciences/Sciences and Technologies.

Values at the heart of an educational project

Following in the footsteps of the famous humanist Marie Jean Antoine Nicolas de Caritat, Marquis of Condorcet, the institution promotes democratic teaching, open to all, focussing as much on training for a critical mind as spreading citizens' wings. Its teams fulfil government service missions observing the principle of neutrality, in line with the values of the educational, social and cultural project (PPSC). This commits them to actively participating in building a democratic, stimulating, tolerant and fun society, interactive and responsible.

HAUTE ÉCOLE DE LA PROVINCE DE LIÈGE

HEAD OFFICE

Avenue Montesquieu 6
4101 Jemeppe-sur-Meuse
<http://www.provincedeliege.be/en/>

Contact person for international relations:

Morgane LAMOUREUX: morgane.lamoureux@hepl.be

Through numerous disciplines, Haute École de la Province de Liège offers a wide range of educational choices, both shorter (more than 30 Bachelor's degree courses) and longer (7 Master's degree courses).

Whatever the study area concerned, the university college offers training that combines theory with practice thanks to professional traineeships and numerous meetings with the representatives of social-economic sectors.

Haute École de la Province de Liège effectively aims to immediately project its students into the real world of their professional future and equip them, right from the first year of their studies, with effective tools with which to achieve their goals, giving them both transferable and specialist skills in their discipline.

HAUTE ÉCOLE DE LA PROVINCE DE NAMUR

HEAD OFFICE

Rue Henri Blès 192
5000 Namur
<https://www.hepn.be/>

Contact person for international relations:

Céline LEGRAND: celine.legrand@province.namur.be,
relationsinternationales@hepn.province.namur.be

Choosing the Haute École de la Province de Namur means choosing a university college on a human scale. We help students develop skills and build a professional project, offering the support of a teaching and administrative team and listening to individual needs. Learning is taken into account in both its individual and collective dimensions.

On the strength of the skills and experience of our teaching staff and training coordinators, our courses are perfectly in line with the professional world.

With 8 different Bachelor's degree courses and 4 specialisations, we train for the professions of today's society. They also guarantee a high degree of employability, as they are situated either in meaningful new, innovative sectors, or in sectors in which demand is constant. We are actively involved in economic and managerial sciences, public health sciences and motor sciences, as well as agronomic sciences and biological engineering.

Through the courses, activities and events we organise, we encourage an interdisciplinary approach and strive to have the different Bachelor's degrees and specialisations come together around common themes. We are firmly convinced that it is essential to foster interdisciplinary thinking, filled with different knowledge and skills.

We do everything we can to make the student the real protagonist of their training, providing all the tools necessary to meet the expectations of future employers or to ensure that they can embark on everything they dream of, pursuing ambitions and developing creativity and knowledge.

HAUTE ÉCOLE ROBERT SCHUMAN

HEAD OFFICE

Rue Fontaine aux Mûres 13B
6800 Libramont
<https://www.hers.be/>

Contact person for international relations:

Patrick GALLIEZ: international@hers.be

Located in the Province of Luxembourg (South Belgium), the Haute École Robert Schuman (HERS) offers both Bachelor's and Master's degrees.

It numbers 5 departments on 3 different geographic sites: Arlon (Technical and Social Departments), Libramont (Economic and Paramedical Departments) and Virton (Teaching Department).

The main characteristics of the HERS are its human, family and environmental dimensions. Situated right in the heart of an unrivalled natural region in Belgium, it welcomes 2,250 students who benefit from a tailored approach. Although situated in a rural region, it is in any case very close to the European centre of Luxembourg, Germany and France, sources of varied cultural and economic wealth.

Just like many of Belgian university colleges, HERS offers numerous professional training courses and business traineeships that constitute a key element. HERS also has a continuous research and training centre (RESSORT).

HAUTE ÉCOLE DE LA VILLE DE LIÈGE

HEAD OFFICE

Rue Hazinelle 2
4000 Liège
<https://www.hel.be/>

Contact person for international relations:

Rebecca RAHIER: rebecca.rahier@hel.be,
mobility@hel.be

The HEL is a family-sized school hosting every year 2,200 students and 250 teachers, who really care about their students.

The college provides job-ready graduates for:

- Economics: Accounting, Executive Assistant, Public Relations, Administrative Sciences and Public Administration, Hotel Management and Nursing Home Management;
- Education: Preschool Teaching, Primary Teaching and Secondary Teaching;
- Paramedical: Speech Therapy and Orthoptics;
- Technical: Electronics, IT and Systems, Chemistry, Automobile and Alternative and Renewable Energies.

Interesting class projects and work placement opportunities are provided to our students together with learning up to 6 languages, which are taught according to each student's level, with a focus on business language.

Liège is only a short train ride from Brussels, Maastricht or Aachen. Located in the heart of the city, close to shops, restaurants and pubs, our school is perfect to live your student life to the fullest.

ABOUT US, WALLONIE-BRUXELLES CAMPUS

WALLONIE
BRUXELLES
CAMPUS

The agency promoting higher education in French-speaking Belgium on the international scene, Wallonie-Bruxelles Campus is under the authority of **Wallonia-Brussels International (the Ministry of Foreign Affairs of French-speaking Belgium)** and the Ministry of the Wallonia-Brussels Federation, which is the relevant authority for teaching and education. Our agency is therefore at the service of international students and higher education institutions of the Wallonia-Brussels Federation.

The aims of Wallonie-Bruxelles Campus

- To ensure the international visibility of French-speaking Belgian higher education and support the international action taken by higher education institutions;
- To provide international students with useful information and help them achieve their study plans in French-speaking Belgium;
- To develop specific information and promotional tools for higher education in Wallonia-Brussels;
- To ensure a regular watch, via its worldwide network, and inform higher education institutions in French-speaking Belgium about opportunities for international cooperation.

Wallonia-Brussels International

Wallonia-Brussels International (WBI) is the body responsible for Wallonia and Brussels international relations, i.e. the Ministry of Foreign Affairs of Wallonia-Brussels.

Under agreements with 70 countries and regions but also in its position within multilateral fora, WBI's mission is to increase the impact, influence and reputation of the Wallonia-Brussels area and of its representatives (higher education institutions, researchers, students, entrepreneurs, creators, artists, etc.).

In practice, WBI's mission takes the form of five activities:

- Diplomatic representation
- Support for project development
- Promotion
- Networking
- Advice and strategic monitoring

WBI operates through a network of General Delegations with diplomatic status. The network abroad also includes sectoral networks: Academic and Cultural Liaison Officers, and Scientific Liaison Officers.

OUR MAIN INSTITUTIONAL PARTNERS

In order to ensure the globalisation of French-speaking Belgian higher education, and as an agency of **Wallonia-Brussels International (WBI)** in charge of its promotion, Wallonie-Bruxelles Campus works closely with the external network of WBI as well as with the Academy for Research and Higher Education. Wallonie-Bruxelles Campus also collaborates on a regular basis with: the Ministry of the Wallonia-Brussels Federation, AEF Europe and the National Fund for Scientific Research (FNRS).

- **The Ministry of the Wallonia-Brussels Federation** has the mission of implementing, after obtaining parliamentary approval, the policy adopted by the Wallonia-Brussels Federation government.
<http://www.federation-wallonie-bruxelles.be/>

- **The Academy For Research and Higher Education** is the federation of French-speaking higher education institutions of Belgium. Its role is to ensure the global coordination of their activities and foster their development and collaboration.
<https://www.ares-ac.be/>

- **AEF Europe** is the French-speaking agency promoting lifelong education and training. It is in charge of the education and training part of the Erasmus+ programme. This Agency is in charge of promoting, implementing and managing the various programmes assigned it, in compliance with the European objectives. <http://www.erasmusplus-fr.be/>

- **The National Fund for Scientific Research – FNRS** seeks to develop basic scientific research under the scope of the initiatives presented by researchers. It fosters the production and development of knowledge, supporting, on the one hand, researchers individually and, on the other, financing research programmes pursued in the laboratories and services mainly situated in the universities of the Wallonia-Brussels Federation.
